

NETBOX Charge

Special Socket NETBOX Charge

With a charging power of up to 2 x 20 watts, smartphones and tablets are recharged in no time. The power supply for the **NETBOX Charge** can be configured, as required, with the GST plug-in connection system (GST18/GST15) or with a Type-C EURO flat plug. The USB charging station **NETBOX Charge** offers the key advantage of being suitable for use as either a surface-mounted or under-mounted solution for furniture. This versatile USB charging station is ideal for integrating power into furniture, whether it be a desk, a seat, a kitchen unit or a cupboard.
